# MOOSE & GRIZZLY BEAR HUNTS

**WE'VE ALL IMAGINED HUNTING** a large Alaskan Moose - watching as he lazily grazes through marshy ground moving his majestic set of antlers back and forth. With a few grunts and calls however, he is immediately at attention and makes our heart rates jump as we ready ourselves for the shot. We have moose hunting camps in some of the best habitat located in Southwest Alaska, the Alaska Interior, and on the Alaska Peninsula. Our hunts are conducted in September each year and after arrival into base camp you will continue on your hunt by either boat, argo, horses, or another short hop with a Super Cub into a spike camp.

**GREAT EFFORTS ARE PUT INTO ALL ASPECTS** of our moose hunts from gear and equipment to planning and scouting. We go through a detailed gear list and general hunt information with each hunter to ensure they are fully prepared and ready for their hunt. Our average trophy moose taken are between 55 and 70 inches, with our past hunting seasons harvesting up to 77 inch moose and the current #4 Boone and Crockett Alaska moose. We focus on harvesting older mature bulls and a moose hunt also provides a great opportunity to hunt Grizzly as well in areas where the seasons coincide.

# DALL SHEEP & GRIZZLY BEAR HUNTS

**WE HAVE ENJOYED SOME GREAT SHEEP HUNTING** and even more so, helping to fulfill the dreams of our hunters who desire the experience of hunting Dall Rams. No matter the age or ability of the hunter, we will work together to provide a hunt that is tailored to each hunters capability and can provide extra means of help if needed. We do not require our hunters to carry a heavy backpack- most of our past hunters have used a small backpack or hip pack. We want everyone that dreams of hunting Dall sheep to have the opportunity to experience this hunt, it is one that will be remembered for a lifetime!
