CUSTOM BUILT AND READY FOR ALASKA ADVENTURE

The Northwest Odyssey was designed and constructed from steel with the same rugged strength and integrity of vessels built for Alaska's renowned commercial fisheries. It offers an ideal balance of public and personal space. The first-class amenities were custom built with outdoorsmen in mind. With handcrafted wood interiors, guests feel comfortable and at home in one of the six beautiful staterooms.

The vessel's specific design offers many advantages such as a flat bottom that could allow it to go dry during a tide or the ability to travel up further into some river systems. The bulbous bow is constructed to give a smoother ride and be able to handle Alaskan waters.

The Northwest Odyssey is a family operation, run by Preston and Stacie Cagner, who have over 20 years of guided hunting, fishing, and touring expeditions in Alaska. Adding the vessel to their operations comes with great excitement as this is a one of a kind vessel on the coast of the Alaskan Peninsula. Come and experience the comfort and advantages of the Northwest Odyssey this season!
